Consumer Goods - Germany

Buy (old: Buy) 08.11.2024

EUR 17.50 (old: EUR 17.50)

Q3 review: benefitting change in mix; chg. est.

Topic: Westwing released solid Q3 results yesterday, which were slightly above our sales estimates, but in line at adj. EBITDA. Overall, the product and cost mix both showed improvements, positioning WEW well for the important Q4 ahead and beyond. In detail:

Q3 sales increased by 3% yoy to € 96m (eNuW: € 90m), driven by growth in active customers (+1% yoy to 1.28m) and a surging basket size (+16% yoy to € 206), which offset the trend of declining number of orders (-13% yoy). DACH grew 4%, implying continued market share gains amid ongoing challenges in the German online Home & Living market (-5% yoy in DACH; +9pp outperformance), whereas International (+2% yoy) was burdened by the switch in product assortment in the short-term.

Adj. EBITDA grew by 46% yoy to € 4m (eNuW: € 4.1m; 9M: € 13.7m, +15% yoy), thanks to an improved cost mix. Next to a rising gross margin (+0.7pp, thanks to the ongoing rise of the Westwing collection share by 10pp to 58%), the larger lever was a decrease in the fulfilment cost ratio by 2.7pp. In return, WEW spent 20% yoy more in brand marketing (especially in DACH), to prepare for the seasonally important Q4. Within the segments, DACH's adj. EBITDA of € 1.3m (2.4% margin) was burdened by the aforementioned marketing campaign, whereas International expanded EBITDA to € 2.4m (5.2% margin), mainly driven by the strong increase of the Westwing collection share.

FCF came in at € -6m in Q3 and was burdened by the seasonal inventory ramp up (€ +6m qoq WC effect in Q3). Per 9M, FCF thus stood at € -9m, containing already some € 5m of the € 10-12m one-off cash effective SaaS tech-platform restructuring. As management guides for FCF break even in FY'24e, this implies a **positive FCF of € 9m** (eNuW: € 10m; € 14-16m FCF excl. one-offs), on the back of positive WC reversals, but also due to a better cost mix.

The fact that WEW was able to show growth despite an ongoing market decline, ultimately increasing market share, while also turning to a leaner cost base, shows that management is on track to prepare the company for disproportionate growth and operating leverage should consumer sentiment pick up again. Moreover, the more than healthy balance sheet (net cash explains 45% of market cap) provides the basis for further country expansions. Therefore, we reiterate our **BUY recommendation with an unchanged PT of € 17.50**, based on DCF. - analyst change -

Comment on changes

- better FY'24e EBIT and EPS estimate stem from revised D&A estimates for Q4'24e.
- EPS changes for FY'25e & '26e stem from revised financial result assumptions.

Company description

Westwing is a leading e-commerce platform that allows customers to have the combined advantages of online and offline shops for home and living products. The company's product portfolio is complemented by consultation services from professional designers.

Guidance

- 2024 Sales: -3% to +4% yoy
- 2024 Adj. EBITDA: € 14-24m

Disclosures

Disclosures regarding research publications of NuWays AG pursuant to section 85 of the German Securities Trading Act (WpHG)

Indication of conflict of interest

It is essential that any research recommendation is fairly presented and discloses interests of indicates relevant conflicts of interest. Pursuant to section 85 of the German Securities Trading Act (WpHG) a research report has to point out possible conflicts of interest in connection with the analysed company. A conflict of interest is presumed to exist in particular if NuWays AG

- (1) or any other person belonging to the same group with it was part of a consortium within the past twelve months that issued the financial instruments of the analysed company by way of a public offer.
- (2) or any other person belonging to the same group with it has entered into an agreement on the production of the research report with the analysed company.
- or any other person belonging to the same group with it has been party to an agreement on the provision of investment banking services with the analysed company or have received services or a promise of services under the term of such an agreement within the past twelve month.
- (4) The analysed company holds 5% or more of the share capital of NuWays AG.
- (5) holds (a) a net short position or (b) a net long position of 0.5% of the outstanding share capital of the analysed company.
- (6) or any other person belonging to the same group with it is a market maker or liquidity provider in the financial instruments of the issuer.
- (7) or the analyst has any other significant financial interests relating to the analysed company such as, for example, exercising mandates in the interest of the analysed company.
- (8) The research report has been made available to the analysed company prior to its publication. Thereafter, only factual changes have been made to the report.

Conflicts of interest that existed at the time when this research report was published:

1. General Information/Liabilities

This research report has been produced for the information purposes of institutional investors only, and is not in any way a personal recommendation, offer or solicitation to buy or sell the financial instruments mentioned herein. The document is confidential and is made available by NuWays AG exclusively to selected recipients in the European Union (EU) or, in individual cases, also in other countries. It is not allowed to pass the research report on to persons other than the intended recipient without the permission of NuWays AG. Reproduction of this document, in whole or in part, is not permitted without prior permission NuWays AG. All rights reserved.

Under no circumstances shall NuWays AG, any of its employees involved in the preparation, have any liability for possible errors or incompleteness of the information included in this research report – neither in relation to indirect or direct nor consequential damages. Liability for damages arising either directly or as a consequence of the use of information, opinions and estimates is also excluded. Past performance of a financial instrument is not necessarily indicative of future performance.

2. Responsibilities

This research report was prepared by the research analyst named on the front page (the "Producer"). The Producer is solely responsible for the views and estimates expressed in this report. The report has been prepared independently. The content of the research report was not influenced by the issuer of the analysed financial instrument at any time. It may be possible that parts of the research report were handed out to the issuer for information purposes prior to the publication without any major amendments being made thereafter.

3. Organisational Requirements

NuWays AG took internal organisational and regulative precautions to avoid or accordingly disclose possible conflicts of interest in connection with the preparation and distribution of the research report. All members of NuWays AG involved in the preparation of the research report are subject to internal compliance regulations. No part of the Producer's compensation is directly or indirectly related to the preparation of this financial analysis. In case a research analyst or a closely related person is confronted with a conflict of interest, the research analyst is restricted from covering this company.

4. Information Concerning the Methods of Valuation/Update

The determination of the fair value per share, i.e. the price target, and the resultant rating is done on the basis of the adjusted free cash flow (adj. FCF) method and on the basis of the discounted cash flow – DCF model. Furthermore, a peer group comparison is made.

The adj. FCF method is based on the assumption that investors purchase assets only at a price (enterprise value) at which the operating cash flow return after taxes on this investment exceeds their opportunity costs in the form of a hurdle rate of 7.5%. The operating cash flow is calculated as EBITDA less maintenance capex and taxes.

Within the framework of the DCF approach, the future free cash flows are calculated initially on the basis of a fictitious capital structure of 100% equity, i.e. interest and repayments on debt capital are not factored in initially. The adjust-

ment towards the actual capital structure is done by discounting the calculated free cash flows with the weighted average cost of capital (WACC), which takes into account both the cost of equity capital and the cost of debt. After discounting, the calculated total enterprise value is reduced by the interest-bearing debt capital in order to arrive at the equity value.

NuWays AG uses the following three-step rating system for the analysed com-

Buy: Sustainable upside potential of more than 20% within 12 months

Sell: Sustainable downside potential of more than 20% within 12 months.

Hold: Upside/downside potential is limited. No immediate catalyst visible.

The decision on the choice of the financial instruments analysed in this document was solely made by NuWays AG. The opinions and estimates in this research report are subject to change without notice. It is within the discretion of NuWays AG whether and when it publishes an update to this research report, but in general updates are created on a regular basis, after 6 months at the latest. A sensitivity analysis is included and published in company's initial studies.

5. Major Sources of Information

Part of the information required for this research report was made available by the issuer of the financial instrument. Furthermore, this report is based on publicly available sources (such as, for example, Bloomberg, Reuters, VWD-Trader and the relevant daily press) believed to be reliable. NuWays AG has checked the information for plausibility but not for accuracy or completeness.

6. Competent Supervisory Authority
