The new group continues to take shape; chg. est.

Topic: While SYNBIOTICs largest holding WEECO performs notably ahead of expectations and the group added two new companies to its portfolio, it also decided to terminate the ongoing integration of CannaCare Health due to delays in the process on the back of missing financial information.

WEECO Pharma exceeding expectations. Since the de-classification of medical cannabis as a narcotic drug at the beginning of April, the number of patients is seen to have doubled to some 0.5-0.6m, strongly impacting the overall demand, which in many cases outgrows supply. This is also visible in the ytd sales development of WEECO. With € 6.75m sales at the end of October, the company already surpassed its initial FY24 target of € 6m. Management now anticipates annual revenues exceeding € 8m (eNuW: € 8.2m), making WEECO the group's largest contributor (eNuW: 54% in FY24e).

While the integrations of WEECO and greensby are well on track, SYNBIOTIC has announced that the planned contribution of CannaCare Health GmbH into the group will not proceed. The decision stems from delays in finalizing the fairness opinion and CannaCare's inability to provide up-to-date financial information. Despite this, Frank Otto, CannaCare's principal shareholder, will retain his position on SYNBIOTIC's board of directors and as key shareholder. Positively, the lost sales of some € 2m in FY24e should largely be compensated for by the strong operational development of WEECO.

New additions to the group. Through a capital increase, SYNBIOTIC now holds **15.1% of GOC NEXUS GmbH**, which specializes in the decontamination of cannabis products using advanced cold plasma technology. The company is also developing international cannabis processing hubs. While this addition has no immediate (material) impact on the group's P&L, the signed cooperation agreement ensures de-bottlenecking within the medical cannabis supply chain.

Further, **SYNBIOTIC** acquired **50.2%** of **greensby**, a central platform that connects patients, pharmacies, telemedicine providers and consumers and enables the comparison of cannabis products. Following its integration into SYNBIOTIC, greensby will expand its range to include hemp products and cultivation accessories for recreational cannabis, offering up to 4,000 products. While we expect only a marginal sales contribution for now, it fits well into the group's strategic objective to grow along the value chain.

We confirm our BUY rating with an unchanged € 12.40 PT based on DCF.

1. General Information/Liabilities

This research report has been produced for the information purposes of institutional investors only, and is not in any way a personal recommendation, offer or solicitation to buy or sell the financial instruments mentioned herein. The document is confidential and is made available by NuWays AG exclusively to selected recipients in the European Union (EU) or, in individual cases, also in other countries. It is not allowed to pass the research report on to persons other than the intended recipient without the permission of NuWays AG. Reproduction of this document, in whole or in part, is not permitted without prior permission NuWays AG. All rights reserved.

Under no circumstances shall NuWays AG, any of its employees involved in the preparation, have any liability for possible errors or incompleteness of the information included in this research report – neither in relation to indirect or direct nor consequential damages. Liability for damages arising either directly or as a consequence of the use of information, opinions and estimates is also excluded. Past performance of a financial instrument is not necessarily indicative of future performance.

2. Responsibilities

This research report was prepared by the research analyst named on the front page (the "Producer"). The Producer is solely responsible for the views and estimates expressed in this report. The report has been prepared independently. The content of the research report was not influenced by the issuer of the analysed financial instrument at any time. It may be possible that parts of the research report were handed out to the issuer for information purposes prior to the publication without any major amendments being made thereafter.

3. Organisational Requirements

NuWays AG took internal organisational and regulative precautions to avoid or accordingly disclose possible conflicts of interest in connection with the preparation and distribution of the research report. All members of NuWays AG involved in the preparation of the research report are subject to internal compliance regulations. No part of the Producer's compensation is directly or indirectly related to the preparation of this financial analysis. In case a research analyst or a closely related person is confronted with a conflict of interest, the research analyst is restricted from covering this company.

4. Information Concerning the Methods of Valuation/Update

The determination of the fair value per share, i.e. the price target, and the resultant rating is done on the basis of the adjusted free cash flow (adj. FCF) method and on the basis of the discounted cash flow – DCF model. Furthermore, a peer group comparison is made.

The adj. FCF method is based on the assumption that investors purchase assets only at a price (enterprise value) at which the operating cash flow return after taxes on this investment exceeds their opportunity costs in the form of a hurdle rate of 7.5%. The operating cash flow is calculated as EBITDA less maintenance capex and taxes.

Within the framework of the DCF approach, the future free cash flows are calculated initially on the basis of a fictitious capital structure of 100% equity, i.e. interest and repayments on debt capital are not factored in initially. The adjust-

ment towards the actual capital structure is done by discounting the calculated free cash flows with the weighted average cost of capital (WACC), which takes into account both the cost of equity capital and the cost of debt. After discounting, the calculated total enterprise value is reduced by the interest-bearing debt capital in order to arrive at the equity value.

NuWays AG uses the following three-step rating system for the analysed com-

Buy: Sustainable upside potential of more than 20% within 12 months

Sell: Sustainable downside potential of more than 20% within 12 months.

Hold: Upside/downside potential is limited. No immediate catalyst visible.
